

Purpose

In order to assist those market participants that wish to consider entering into Block Trade or Exchange of Contract for Related Position ("ECRP") transactions in Cboe Futures Exchange, LLC ("CFE") products, CFE has assembled a list of CFE Trading Privilege Holders ("TPHs") and entities of Authorized Reporters for TPHs that have expressed interest in being contacted as a potential contra party to Block Trades and ECRP transactions in CFE products, as an agent for the execution of Block Trades and ECRP transactions in CFE products, and/or as an Authorized Reporter for one or more potential contra parties to Block Trades and ECRP transactions in CFE products (collectively, "Participants").

This list is provided solely for informational purposes and not as an endorsement of the Participants listed. No significance should be attached to a Participant's inclusion or omission. The list may not be exhaustive since the list only includes those Participants that have requested to be included on the list. In connection with compiling this list, CFE has not investigated the background or disciplinary history of any of the Participants or their associated individuals listed or whether or not they have any required registration status necessary to perform these functions.

Any TPH or Authorized Reporter that would like to be included on this list or to have its listing revised or removed should complete this Block Trade/ECRP Participant Consent Form (Form) and e-mail it to institutionalmarketing@cboe.com.

Listing Information

A Participant agrees that CFE may publish on cboe.com the Participant's company name, the Participant's company website address, the Participant's company logo, the contact information for the Participant and the Participant's associated individuals provided below, and that the Participant has expressed an interest in being contacted for the CFE products identified below as a potential contra party to Block Trades and ECRP transactions, as an agent for the execution of Block Trades and ECRP transactions, and/or as an Authorized Reporter for one or more potential contra parties to Block Trades and ECRP transactions.

CFE plans to request periodically that Participants re-confirm and/or update the information provided on this Form. Cboe may remove a Participant from the above-described listing on cboe.com if the Participant does not respond in a timely manner to a request from CFE to re-confirm and/or update the information provided on this Form.

Any request to alter the information provided in this Form must be made through a subsequent submission of this Form with the updated information.

The information included by a Participant on any subsequently submitted Form supersedes and replaces the information included by the Participant on any earlier submitted Form.

Please contact institutionalmarketing@cboe.com if you have any questions.

Block Trade/ECRP Participant Consent Form

Background Information

Any non-TPH must utilize a TPH to execute a Block Trade or ECRP transaction as agent on behalf of that non-TPH just as a non-TPH would need to use a TPH to execute an order through CFE's trading system. In order for a TPH to act as agent for a non-TPH, that TPH would need to have any required registration or qualification to perform that function.

TPHs need to utilize Authorized Reporters to report Block Trades and ECRP transactions to CFE. Any individual that is pre-authorized by a CFE Clearing Member can register as an Authorized Reporter to report Block Trades and ECRP transactions on behalf of the TPH by completing the applicable Block Trade/ECRP Authorized Reporter Registration and Guarantee Form found [here](#).

See CFE Rules 414 and 415 of the [CFE Rulebook](#) for more information regarding Block Trade and ECRP transaction requirements, including Authorized Reporter requirements.

Cboe Global Markets Privacy Notice and Policy

The Participant agrees to the terms of Cboe Global Markets, Inc. ("Cboe") Privacy Notice and Policy (located at www.cboe.com/privacy) and acknowledges that personal data (including data provided in this Form) will be processed in accordance with that Policy.

Consent

The Participant hereby agrees and explicitly consents to the processing and dissemination (on the Cboe publicly available website) of the data provided in this Form. The Participant understands that this consent can be withdrawn at any time by submitting this Form to institutionalmarketing@cboe.com with the box checked to Remove Participant Information Published on Cboe Website for Purpose Above.
