PRE-EXECUTION DISCUSSIONS	The Order Exposure Period under Policy and Procedure IV before an Order may be entered to take the other side of another Order with respect to which there has been pre-execution discussions is five seconds after the first Order was entered into the CFE System.
EXCHANGE OF CONTRACT FOR RELATED POSITION TRANSACTIONS:	Exchange of Contract for Related Position ("ECRP") transactions may not be entered into with respect to FBT futures.
BLOCK TRADES:	Block Trades may be entered into in FBT futures. Any Block Trade must satisfy the requirements of Rule 415. The minimum Block Trade quantity for FBT futures is 10 contracts if there is only one leg involved in the trade. If the Block Trade is executed as a transaction with legs in multiple contract expirations, each leg must meet the minimum Block Trade quantity for FBT futures. Any Block Trade must satisfy the requirements of Rule 415. The minimum price increment for Block Trades in FBT futures is $0.01.
NO-BUST RANGE:	The CFE error trade policy may only be invoked for a trade price that is greater than 1% on either side of the market price of the applicable FBT futures Contract. In accordance with Policy and Procedure III, the Trade Desk will determine what the true market price for the relevant Contract was immediately before the potential error trade occurred. In making that determination, the Trade Desk may consider all relevant factors, including the last trade price for such Contract, a better bid or offer price, a more recent price in a different contract expiration, and the prices of related contracts trading on the Exchange or other markets.
TERMINATION OF TRADING:	Trading hours in an expiring FBT futures contract end at 10:00 a.m. Chicago time on its final settlement date.
FINAL SETTLEMENT DATE:	The final settlement date for a weekly FBT futures contract is the Friday of the calendar week denoted by the ticker symbol of the contract. The final settlement date for a monthly serial or quarterly FBT futures contract is the last Friday of the calendar month denoted by the ticker symbol of the contract. If the final settlement date is a CFE holiday, the final settlement date shall be the business day immediately preceding the holiday.
FINAL SETTLEMENT VALUE:	The final settlement value of an expiring FBT futures contract shall be the value of the Cboe Kaiko Bitcoin Rate Index, as determined by Kaiko, at 10:00 a.m. Chicago time on the final settlement date of that FBT futures contract. If the Exchange concludes that the final settlement value of an expiring FBT futures contract determined in the foregoing manner does not fairly represent the market value of the price of bitcoin in U.S. dollars at the time of determination of the final settlement value, the Exchange may determine an alternative final settlement value for the FBT futures contract. That determination may be based upon, among other things, one or more third party index(es) or reference

	price(s) that reflect the price of bitcoin in U.S. dollars. If a final settlement value is not available or the normal settlement procedure cannot be utilized due to a trading disruption or other unusual circumstance, the final settlement value on an FBT futures contract will be determined in accordance with the Rules of Cboe Clear U.S., LLC. The final settlement value will be rounded to the nearest dollar level without cents.
DELIVERY:	Settlement of a FBT future will result in the delivery of a cash settlement amount in accordance with the Rules of Cboe Clear U.S., LLC. The cash settlement amount on the final settlement date shall be the final mark to market amount against the final settlement value of the FBT futures contract multiplied by 0.10.
POSITION LIMITS:	FBT futures are subject to position limits under Rule 412. A Person may not own or control more than 85,000 contracts net long or net short in all FBT futures contract expirations combined. For the purposes of Rule 412, positions shall be aggregated in accordance with Rule 412(e). The foregoing position limit shall not apply to positions that are subject to a position limit exemption meeting the requirements of Commission Regulations and CFE Rules.
REPORTABLE POSITION LEVEL:	25 contracts.
FORKS	In the event that bitcoin experiences a fork, the form of bitcoin on which all then currently listed and subsequently listed FBT futures contracts and their final settlement values will be based is the form of bitcoin that is used by Kaiko to calculate the Cboe Kaiko Bitcoin Rate Index following the fork.
