Market-Makers should contact their clearing firm and auto-quote provider and request a Hybrid login ID. Once connected, a Market-Maker will be able to practice Hybrid trading during regular trading hours. Market-Makers must participate in a practice session and receive quote certification by Trading Operations staff before accessing Hybrid in live trading. **Please do not wait until the day before your target class is converted to Hybrid to start the certification process.** If you have any Hybrid questions, please use the contact list below.
