Re: February Cycle*, 2010 LEAPS Conversion Schedule

The following schedule will be used for rolling the February cycle 2010 LEAPS option classes into the regular option class symbols.

Friday, June 12, 2009 -- Last day February cycle 2010 LEAPS classes trade using a separate LEAP symbol.

Monday, June 15, 2009 – January 2010 series for February cycle classes begin trading under the regular option class symbol.

Monday, October 12, 2009 – 2012 LEAPS introduced for February cycle option classes.

*February cycle classes currently list the MAY, JUNE, AUGUST & NOVEMBER strikes.

Please note: The symbols that were used to represent the 2010 LEAPS until Friday, June 12 will return to represent the 2012 LEAPS on **Monday, October 12, 2009**.

For example, Agilent Technologies 2010 LEAPS are represented by symbol YA. After the January 2010 series are converted to symbol A on June 15th, symbol YA will return to represent the January 2012 series on **Monday, October 12, 2009**.

A memo detailing the conversion by series will be distributed the week of June 8th. A memo listing the 2012 LEAP classes and series will be distributed the week of **October 5th**. Questions regarding this notice may be directed to Hugh O'Neill at 786-7952.
