CBSX Trader News Update

CBSX to Add New Stocks for Trading

TO: Members

SUBJECT: Claymore Exchange-Traded Fund Trust

Compliance and supervisory personnel should note that, among other things, this Information Bulletin discusses the need to deliver a prospectus to customers purchasing shares ("Shares") of the one (1) exchange-traded fund ("Fund") listed below issued by Claymore. Please forward this Information Bulletin to other interested persons within your organization.

The following securities have been approved for trading on CBSX:

Exchange-Traded Funds	Symbol
Claymore/Raymond James SB-1 Equity ETF	RYJ

Background Information on the Funds

The Claymore ETF Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the Claymore/Raymond James SB-1 Equity ETF (the "Fund"). The shares of the Fund are referred to herein as "Shares." Claymore Advisors, LLC (the "Adviser") is the investment adviser to the Fund.

The Fund seeks investment results that correspond generally to the performance, before the Fund's fees and expenses, of an equity index called the Raymond James SB-1 Equity Index (the "SB-1 Equity Index" or the "Index"). The Fund's investment objective is not fundamental and may be changed by the Board of Trustees without shareholder approval.

The Fund, using a "passive" or "indexing" investment approach, will seek to replicate, before fees and expenses, the performance of the SB-1 Equity Index. The SB-1 Equity Index is composed of all equity securities rated Strong Buy 1 ("SB-1") by Raymond James & Associates, Inc., an affiliate of Raymond James Research Services, LLC ("Raymond James" or the "Index Provider"), as of each rebalance and reconstitution date. Index constituents include equity securities of all market capitalizations, as defined by the Index Provider, that trade on a U.S. securities exchange, including common stocks, American depositary receipts, real-estate investment trusts and master limited partnerships. The number of securities in the Index may vary depending on the number of equity securities rated SB-1 by Raymond James & Associates. The Index is currently expected to consist of between 100 and 200 securities and, as of April 30, 2008, the market capitalization range of Index constituents was \$40 million to \$187 billion.

Under normal conditions, the Fund will invest at least 80% of its assets in equity securities. The Fund will also normally invest at least 80% of its total assets in securities that comprise the Index and investments that have economic characteristics that are substantially identical to the economic characteristics of the component securities that comprise the Index. The Fund has adopted a policy that requires the Fund to provide shareholders with at least 60 days notice prior to any material change in this policy or the Index. The Board of Trustees of the Trust may change the Fund's investment strategy and other policies without shareholder approval, except as otherwise indicated.

The Adviser seeks a correlation over time of 0.95 or better between the Fund's performance and the performance of the total return of the Index less any expenses or distributions. A figure of 1.00 would represent perfect correlation. The Fund generally will invest in all of the securities comprising the Index in proportion to their weightings in the Index. However, under various circumstances, it may not be possible or practicable to purchase all of the securities in the Index in those weightings. In those circumstances, the Fund may purchase a sample of the securities in the Index in proportions expected by the Adviser to replicate generally the performance of the Index as a whole. There may also be instances in which the Adviser may choose to overweight another security in the Index, purchase (or sell) securities not in the Index which the Adviser believes are appropriate to substitute for one or more Index components, or utilize various combinations of other available investment techniques, in seeking to accurately track the Index. In addition, from time to time securities are added to or removed from the Index. The Fund may sell securities that are represented in the Index or purchase securities that are not yet represented in the Index in anticipation of their removal from or addition to the Index.

As described more fully in the Trust's prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 50,000 Shares (each, a "Creation Unit"). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund. Income dividends, if any, are distributed to shareholders annually. Net capital gains are distributed at least annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the underlying Index, visit the Fund's website at www.claymore.com.

Exchange Rules Applicable to Trading the Shares

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities.

Purchases and Redemptions in Creation Unit Size

CBSX members are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the Trust's prospectus and Statement of Additional Information ("SAI"), and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing the Fund's performance to not match the performance of the underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, foreign securities risk, sector/industry risk, micro, small and medium capitalization company risk, and currency risk.

Trading Hours

The values of each index underlying the Shares are disseminated to data vendors every 15 seconds. The Shares will trade on the CBSX from 8:15 a.m. CT until 3:00 p.m. CT. The trading increment for the Fund's Shares will be \$0.01.

Extended Hours Trading

Members are reminded that trading in the Fund's Shares prior to 8:30 a.m. may result in additional trading risks which include: (1) that the current underlying index value may not be updated, (2) the intraday indicative value may not be updated, (3) lower liquidity may impact pricing, (4) higher volatility may impact pricing, (5) wider spreads may occur, and (6), since the intraday indicative value is not calculated or widely disseminated, an investor who is unable calculate an implied value for an ETF in those sessions may be at a disadvantage to market professionals.

Trading Halts

The Exchange will halt trading in the Shares based on Rule 52.3 and/or because dissemination of the intraday indicative value of the Shares and/or the underlying value of the index has ceased.

Suitability

Members are reminded of their obligation under Rule 53.6 whereby the Member shall use due diligence to learn the essential facts relative to every customer prior to trading the Shares or recommending a transaction in the Shares that an investment in the Shares is suitable for the customer. Members should adopt appropriate procedures for the opening and maintaining of accounts, including the maintaining of records prescribed by any applicable regulatory organization and by the rules and regulations of the Commission.

Dissemination of Fund Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Funds to Tape B.

Fund Name	Listing Market	Symbol	IOPV	NAV

Delivery of a Prospectus

Consistent with the requirements of the Securities Act and the rules thereunder, investors purchasing Shares in the initial public offering and anyone purchasing Shares directly from a Fund (by delivery of the designated securities) must receive a Prospectus. In addition, Members are required to deliver a Prospectus to all purchasers of newly-issued Shares (i.e. during the initial public offering). Members purchasing shares from a Fund for resale to investors will deliver a Prospectus to such investors.

Prospectuses may be obtained through the Fund's website. The Prospectus does not contain all of the information set forth in the Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the Commission. For further information about a Fund, please refer to the Registration Statement.

In the event that a Fund relies upon an order by the Commission exempting the Shares from certain Prospectus delivery requirements under Section 24(d) of the 1940 Act and makes available a written product description, the Exchange requires that Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust, no later than the time a confirmation of the first transaction in the Shares, is delivered to such purchaser. In addition, ETP Holders shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a Member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund."

An Member carrying an omnibus account for a non-Member is required to inform such non-Member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-Member to

make such written description available to its customers on the same terms as are directly applicable to Members under this rule.

Upon request of a customer, Members shall also provide a copy of the Prospectus.

This Information Bulletin is not a statutory Prospectus. Members should consult the Trust's Registration Statement, SAI, Prospectus and the Fund's website for relevant information.

Inquiries regarding this Information Bulletin should be directed to David Reed, 866.458.2279.
