

## **CBSX Trader News Update**

### **CBSX to Add New Stocks for Trading**

TO: Members

SUBJECT: Global X Funds

Compliance and supervisory personnel should note that, among other things, this Information Bulletin discusses the need to deliver a prospectus to customers purchasing shares ("Shares") of the one (1) exchange-traded fund ("Fund") listed below issued by Globe X Funds. Please forward this Information Bulletin to other interested persons within your organization.

The following securities have been approved for trading on CBSX:

Exchange-Traded Funds	Symbol
Global X China Materials ETF	CHIM

### **Background Information on the Fund**

Global X Funds (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the Global X China Materials ETF (the "Fund"). The shares of the Fund are referred to herein as "Shares." Global X Management Company LLC (the "Adviser") is the investment adviser to the Fund.

The Fund seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the S-BOX China Materials Index (the "Underlying Index").

The Underlying Index is a free float adjusted, liquidity tested and market capitalization-weighted index that is designed to measure performance of the investable universe of companies in the Materials sector of the Chinese economy, as defined by Structured Solutions AG. Structured Solutions AG does not guarantee the inclusion of all relevant securities in the Underlying Index. Only shares open to foreign ownership are eligible for inclusion in the Underlying Index, such as Hong Kong listed securities incorporated in main land China (H-

shares) or with main business operations in China (Red chips), and Chinese ADRs and GDRs.

The Fund defines Materials companies as companies that are included in the S-BOX China Materials Index at the time of purchase and generally includes companies whose businesses involve: chemicals; metals and mining; and forestry and paper products. As of October 30, 2009, the Underlying Index's three largest stocks were Aluminum Corporation Of China Limited, Zijin Mining Group and Jiangxi Copper Company Limited.

The Adviser uses a "passive" or indexing approach to try to achieve the Fund's investment objective. Unlike many investment companies, the Fund does not try to "beat" the Underlying Index and does not seek temporary defensive positions when markets decline or appear overvalued.

The Fund will normally invest at least 80% of its total assets in the securities of the Underlying Index and in American Depositary Receipts, Global Depositary Receipts and European Depositary Receipts based on the securities in the Underlying Index.

The Fund may also invest up to 20% of its assets in certain futures, options and swap contracts (which may be leveraged and are considered derivatives), cash and cash equivalents, as well as in stocks not included in its Underlying Index, but which the Adviser believes will help the Fund track its Underlying Index.

The Fund will use a replication strategy. A replication strategy is an indexing strategy that involves investing in the securities of the Underlying Index in approximately the same proportions as in the Underlying Index. However, the Fund may utilize a representative sampling strategy with respect to its Underlying Index when a replication strategy might be detrimental to its shareholders, such as when there are practical difficulties or substantial costs involved in compiling a portfolio of equity securities to follow its Underlying Index, in instances when a security in an Underlying Index become temporarily illiquid, unavailable or less liquid, or due to legal restrictions (such as diversification requirements that apply to the Fund but not the Underlying Indexes).

As described more fully in the Trust's prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 50,000 Shares (each, a "Creation Unit"). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Dividends from net investment income, including any net foreign currency gains, generally are declared and paid at least annually and any net realized securities gains are distributed at least annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the underlying Index, visit the Fund's website at [www.globalxfunds.com](http://www.globalxfunds.com).

### **Dissemination of Fund Data**

The Consolidated Tape Association will disseminate real time trade and quote information for the Funds to Tape B.

### **Purchases and Redemptions in Creation Unit Size**

Exchange members are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the Trust's prospectus and SAI, and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

### **Exchange Rules Applicable to Trading the Shares**

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities.

### **Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing the Fund's performance to not match the performance of the underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, foreign

securities risk, technology sector risk, micro-cap, small-cap, mid-cap and large-cap company risk.

### **Trading Hours**

The values of any security underlying the Shares are disseminated to data vendors every 15 seconds. The Shares will trade on the CBSX from 8:00 a.m. CT until 3:00 p.m. CT. The trading increment for the Fund's Shares will be \$0.01.

### **Extended Hours Trading**

Members are reminded that trading in the Fund's Shares prior to 8:30 a.m. may result in additional trading risks which include: (1) that the current underlying index value may not be updated, (2) the intraday indicative value may not be updated, (3) lower liquidity may impact pricing, (4) higher volatility may impact pricing, (5) wider spreads may occur, and (6), since the intraday indicative value is not calculated or widely disseminated, an investor who is unable calculate an implied value for an ETF in those sessions may be at a disadvantage to market professionals.

### **Trading Halts**

The Exchange will halt trading in the Shares based on Rule 52.3 and/or because dissemination of the intraday indicative value of the Shares and/or the underlying value of the index has ceased.

### **Suitability**

Members are reminded of their obligation under Rule 53.6 whereby the Member shall use due diligence to learn the essential facts relative to every customer prior to trading the Shares or recommending a transaction in the Shares that an investment in the Shares is suitable for the customer. Members should adopt appropriate procedures for the opening and maintaining of accounts, including the maintaining of records prescribed by any applicable regulatory organization and by the rules and regulations of the Commission.

### **Delivery of a Prospectus**

Consistent with the requirements of the Securities Act and the rules thereunder, investors purchasing Shares in the initial public offering and anyone purchasing Shares directly from a Fund (by delivery of the designated securities) must receive a Prospectus. In addition, Members are required to deliver a Prospectus to all purchasers of newly-issued Shares (i.e. during the initial public offering). Members purchasing shares from a Fund for resale to investors will deliver a Prospectus to such investors.

Prospectuses may be obtained through the Fund's website. The Prospectus does not contain all of the information set forth in the Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the Commission. For further information about a Fund, please refer to the Registration Statement.

In the event that a Fund relies upon an order by the Commission exempting the Shares from certain Prospectus delivery requirements under Section 24(d) of the 1940 Act and makes available a written product description, the Exchange requires that Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust, no later than the time a confirmation of the first transaction in the Shares, is delivered to such purchaser. In addition, ETP Holders shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a Member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund."

An Member carrying an omnibus account for a non-Member is required to inform such non-Member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-Member to make such written description available to its customers on the same terms as are directly applicable to Members under this rule.

Upon request of a customer, Members shall also provide a copy of the Prospectus.

This Information Bulletin is not a statutory Prospectus. Members should consult the Trust's Registration Statement, SAI, Prospectus and the Fund's website for relevant information.

Inquiries regarding this Information Bulletin should be directed to David Reed, 866.458.2279.
