Background

On February 7, 2011, CBSX announced it is moving its systems to Equinix's NY4 IBX® datacenter in Secaucus, NJ. Systems are available for mock trading of CBSX at NY4 utilizing test products. To schedule a test or to receive a list of test products available for mock trading, please contact the API Group at API@CBOE.COM or call 312-786-7300.

CBSX has a dedicated Tab on its website, www.cbsx.com/NY4/ which incorporates all relative information to the relocation of its matching engine. Included in this tab you will find: Network Connectivity Overview, Connectivity and API Certification information, Co-location Facility information, and a comprehensive FAQs with all contact information available.
