Re: Modified Bid/Ask Differentials

Due to the volatility in the underlying stocks and other factors affecting both the options and the underlying, the Market Performance Committee ("Committee"), by its authority under the provisions of Exchange Rule 8.7(b)(iv), has temporarily established modified bid/ask differentials in the option series of the following option classes. Additionally, the Committee has determined that the provision of Rule 8.7 Interpretation .02 (b) will not apply to the classes for the period of time the above exemption was granted. This relief is granted from the opening of business on September 18, 2000 through the October 2000 Expiration Cycle unless withdrawn by the MPC prior to that time.

This relief was granted by the Committee with the contingency that the disseminated markets in these classes will be competitive and in many instances will be narrower than the relief granted below. The Committee will continue to monitor the activity in the underlying securities of these options, and will modify the bid/ask differentials in the respective options accordingly.

Any questions regarding this memorandum should be directed to Daniel Hustad at (312) 786-7715.

Bid/Ask Relief is granted as follows:

Equity Bid/Ask Relief:
