RE: Restrictions on Transactions in Certain
Advocent Corporation Options (QVX)

Trading in specific series of Advocent Corporation (QVX) has been restricted. The QVX January and May 27 ½ option series have been restricted to closing orders only.

Only closing transactions may be effected in the QVX January and May 27 ½ option series, except for (i) opening transactions by market-makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE member organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d). In addition, the QVX January and May 27 ½ option series will not be traded on RAES. Other QVX option series or QVX option symbols different than those listed above are not subject to these restrictions.

The execution of opening transactions in the QVX January and May 27 ½ option series, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action.

There are no restrictions in place with respect to the exercise of the QVX January and May 27 ½ option series and the Options Clearing Corporation (OCC) has advised CBOE that the expiration of the QVX January and May 27 ½ option series will remain subject to OCC's Exercise-by-Exception Procedures.
