

Regulatory Circular RG06-69

DATE: July 6, 2006

FROM: Market Operations Department

RE: Restrictions on Transactions in
DHB Industries ("DHB/LBE")

The AMEX suspended trading in shares of DHB Industries (DHB/LBE), on the opening of business on July 6, 2006.

Trading on the CBOE in existing series of DHB/LBE options is subject to the following restrictions. Only closing transactions may be affected in any series of DHB/LBE options except for (i) opening transactions by market makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE member organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

The execution of opening transactions in DHB/LBE options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. Member organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class.

There are no restrictions in place with respect to the exercise of DHB/LBE options. The provisions of this circular apply to any options on DHB/LBE on traded on CBOE.
