RE: ILX Service to be replaced by Thomson One

Please be advised on April 1, 2009, Thomson Reuters will retire the ILX Service. Thomson One will be the new replacement product from Thomson Reuters. Between now and March 31, 2009, we will be migrating users to Thomson One. The pricing for the Thomson One package will remain the same as the current basic ILX package at \$425 per month per user id. This price currently includes the Amex, CME, Nasdaq, NYSE and OPRA Exchange fees. All other Exchanges or 3rd party fees are additional.

The new Thomson One package has been expanded to include news from Thomson Reuters as well as many other enhancements and new entitlements. ILX Member Firm users who currently subscribe to Dow Jones News at \$90 per month will continue to receive and be billed for that news service. If you wish to cancel that service, when Thomson One is installed, please contact Trading Operations.

Beginning 4/1/09, any entitlement, listed below, that was billable as an additional entitlement under ILX, will now be included in the Thomson One package at no additional fee.

On the following page are the entitlements that will now be included in the package. If you have any questions regarding the above announcement, please contact Steve Pawloski at x7789, Rich McGrath at x7297 or Peter Smith at x7681.
