

CBOE Regulatory Circular RG17-026

Date: February 15, 2017
To: Trading Permit Holders
From: Business Development Division
RE: CBOE Market Replay Enhancement

Effective February 21, 2017 the Chicago Board Options Exchange, Incorporated (“CBOE” or “the Exchange”) will provide additional order data in CBOE Market Replay. The enhancement will allow TPH floor brokers to view order and trade information for orders entered via their order entry device, namely, PULSe, FBW2 (applicable through February 2017) or Blaze¹.

Floor brokers will have access to the activity of all their orders regardless of whether the order was entered from PULSe, FBW2 or Blaze as long as the TPH user logging into Market Data has a login for the specific application device.

In addition to daily activity, historical data from within the last year will be available for viewing.

For additional information regarding operational matters, please contact the CBOE Help Desk at helpdesk@cboe.com or 866-728-2263.

¹ Floor brokers who utilize Blaze must complete the Terminal Routing Correspondent form prior to being enabled for this new feature. This form can be obtained by accessing the following link - [Terminal Routing Correspondent Form](#)
