321 CLASSES QUALIFYING FOR SPECIAL MARKET-MAKER WEIGHTING

The weighting factor was to be removed beginning October 1, 1994 but the Market Performance Committee has decided to postpone the implementation of the removal of the weighting factor until further notice (see Regulatory Circular RG94-68).

Respecting distribution of trading activity, at least 75 percent of a market-maker's total contract volume must be in option classes to which he has been appointed pursuant to Rule 8.3. The number of option classes to which an appointment may extend is presently five (5) trading stations.

Respecting the manner in which market-maker transactions may be executed, a market-maker must execute in-person, and not through the use of orders, at least 25 percent of his total transactions.

Pursuant to Rule 8.7, the Market Performance Committee has assigned special weighting factors to classes listed below in connection with these requirements. An explanation of the weighting procedures may be obtained from Cynthia Mullen in the Trading Procedures Office, 4th floor, 786-7725. These classes will remain weighted through March, 1995.
