

REGULATORY CIRCULAR RG99-04

Date: January 18, 1999
To: Members
From: Department of Market Regulation
Re: Position and Exercise Limits

Pursuant to Exchange Rule 4.11, Interpretation .02 and Exchange Rule 4.12, all securities underlying the Exchange's listed equity options have been reviewed to determine which options are eligible for either the 75,000, 60,000, 31,500, 22,500 or 13,500 contract position and exercise limits. In addition, pursuant to Exchange Rule 24.4A, all securities underlying the Exchange's listed industry index options have also been reviewed to determine which options are eligible for either the 15,000, 12,000, or 9,000 contract position and exercise limits. Accounts which are directly or indirectly controlled by the same individual or entity must be aggregated to determine compliance with the position and exercise limit rules. Please refer to Position Limit Circular PL99-13 for the list of CBOE options and their applicable position and exercise limits, effective January 19, 1999.

Any questions concerning position and exercise limits should be directed to Patricia Cerny at (312) 786-7722 or Karen Charleston at (312) 786-7724.
