

Regulatory Circular RG 99-132

Date: May 28, 1999

To: Members and Member Firms

From: Allocation Committee

Re: Relocation of the NYSE Composite Index (NYA)

The Allocation Committee has determined to relocate the NYSE Composite Index (NYA) option class to Post 5, station 3, on the main trading floor. This relocation will be effective as of the opening of business on Tuesday, June 1, 1999.

The NYA will continue to be an NYSE Option (as that term is defined in CBOE Rule 3.27). Accordingly, all Options Trading Permit holders will continue to have the trading rights with respect to the NYA that are provided for under Rule 3.27, including the ability to trade the NYA by order and to trade the NYA in person at its new location.

Questions may be directed to Daniel Hustad at (312) 786-7715.
