

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

For complete Form 19b-4 instructions please refer to the EFFS website.

Form 19b-4 Information (required)

[Add](#) [Remove](#) [View](#)

The self-regulatory organization must provide all required information, presented in a clear and comprehensible manner, to enable the public to provide meaningful comment on the proposal and for the Commission to determine whether the proposal is consistent with the Act and applicable rules and regulations under the Act.

Exhibit 1 - Notice of Proposed Rule Change (required)

[Add](#) [Remove](#) [View](#)

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

Exhibit 2 - Notices, Written Comments, Transcripts, Other Communications

[Add](#) [Remove](#) [View](#)

Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

Exhibit 3 - Form, Report, or Questionnaire

[Add](#) [Remove](#) [View](#)

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

Exhibit 4 - Marked Copies

[Add](#) [Remove](#) [View](#)

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

Exhibit 5 - Proposed Rule Text

[Add](#) [Remove](#) [View](#)

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

[Add](#) [Remove](#) [View](#)

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

Item 1. Text of the Proposed Rule Change

(a) Chicago Board Options Exchange, Incorporated (“CBOE” or “Exchange”) proposes to amend its rules regarding the listing of \$1 strike prices. The text of the proposed rule change is provided below with additions underlined and deletions [bracketed].

(b) Not applicable.

(c) Not applicable.

Chicago Board Options Exchange, Incorporated
Rules

* * * * *

Rule 5.5—Series of Option Contracts Open for Trading

RULE 5.5

No change.

...Interpretations and Policies:

.01 The interval between strike prices of series of options on individual stocks may be:

a. The \$1 Strike Program.

(1) \$1.00 or greater (“\$1 strike prices”) provided the strike price is \$50.00 or less, but not less than \$1. Except as provided in subparagraph 3 below, the listing of \$1 strike prices shall be limited to options classes overlying no more than 150 individual stocks as specifically designated by the Exchange. The Exchange may list \$1 strike prices on any other option classes if those classes are specifically designated by other securities exchanges that employ a similar \$1 Strike Program under their respective rules.

(2) To be eligible for inclusion into the \$1 Strike Program, an underlying stock must close below \$50 in its primary market on the previous trading day. After a stock is added to the \$1 Strike Program, the Exchange may list \$1 strike prices from \$1 to \$50 that are no more than \$5 from the closing price of the underlying on the preceding day, or no more than \$5 from the opening price of the underlying on its primary market to be added intraday. For example, if the underlying stock closes at \$13, the Exchange may list strike prices from \$8 to \$18. Also, for example, if the same issue were to open on its primary listing market the next day at \$22.10, the Exchange could immediately list strike prices from \$19 to \$27. In instances where the overnight price movement in the underlying security has left a

discontinuity in \$1 strike prices, the Exchange may list all \$1 strikes between the previous day's close and the opening price on the primary listing market. For instance, an underlying issue that closes at \$14 may have \$1 strikes from \$9 to \$19. If the same issue opens on its primary listing market the next day at \$27.10, it may add \$21 and \$22, in addition to strikes from \$23 to \$32 (and in addition to the standard interval strike of \$20). The Exchange may not list series with \$1.00 intervals within \$0.50 of an existing strike price in the same series, except that strike prices of \$2, \$3, \$4, \$5 and \$6 shall be permitted within \$0.50 of an existing strike price for classes also selected to participate in the \$0.50 Strike Program. In addition, the Exchange may not list series with \$2.50 intervals (e.g., \$12.50, \$17.50) below \$50 under Interpretation and Policy .05 of this Rule (\$2.50 Strike Price Program) for any issue included within the \$1 Strike Program. The Exchange may list one \$1 Strike option series strike above and below each standard \$5 strike interval that is more than \$5 from the price of the underlying security, with the strike being \$2 above the standard strike for each interval above the price of the underlying security, and \$2 below the standard strike, for each interval below the price of the underlying security, provided it meets the OLPP Provisions in Rule 6.4A. For instance, if the underlying security was trading at \$19, the Exchange could list, for each month, the following strikes: \$3, \$5, \$8, \$10, \$13, \$14, \$15, \$16, \$17, \$18, \$19, \$20, \$21, \$22, \$23, \$24, \$25, \$27, \$30, \$32, \$35, and \$37. Additionally, the Exchange may not list long-term option series ("LEAPS®") at [\$1] \$2.50 strike price intervals for any option class selected for the \$1 Strike Program, except as provided in subparagraph 3 below.

For issues in the \$1 Strike Program, the Exchange may list one long-term option series strike between each standard \$5 strike interval, with the strike being \$2 above the standard strike for each interval above the price of the underlying security, and \$2 below the standard strike for each interval below the price of the underlying security. In addition, the Exchange may list the \$1 strike which is \$2 above the standard strike just below the underlying price at the time of listing, and may add additional long-term options series strikes as the price of the underlying security moves, consistent with the OLPP. For instance, if the underlying is trading at \$21.25, long-term strikes could be listed at \$15, \$18, \$20, \$22, \$25, \$27, and \$30. If the underlying subsequently moved to \$22, the \$32 strike could be added. If the underlying moved to \$19.75, the \$13, \$10, \$8, and \$5 strikes could be added.

Additional long-term option strikes may not be listed within \$1 of an existing strike until less than nine months to expiration.

(3) The Exchange may list \$1 strike prices up to \$5 in LEAPS in up to 200 option classes on individual stocks. The Exchange may not list strike prices with \$1.00 intervals within \$0.50 of an existing \$2.50 strike price in the same series.

(4) Delisting Policy. For options classes selected to participate in the \$1 Strike Program, the Exchange will on a monthly basis review series that were originally listed under the \$1 Strike Program with strike prices that are more than \$5 from the current value of an options class and delist those series with no open interest in both the put and the call series having a: (i) strike higher than the highest strike price with open interest in the put and/or call series for a given expiration month; and (ii) strike lower than the lowest strike price with open interest in the put and/or call series for a given expiration month.

If the Exchange identifies series for delisting pursuant to this policy, the Exchange shall notify the other options exchanges with similar delisting policies regarding the eligible series for delisting, and shall work jointly with such other exchanges to develop a uniform list of series to be delisted so as to ensure uniform series delisting of multiply listed options classes.

Notwithstanding the above delisting policy, the Exchange may grant member requests to add strikes and/or maintain strikes in series of options classes traded pursuant to this Program that are eligible for delisting.

A stock shall remain in the \$1 Strike Program until otherwise designated by the Exchange.

(b) – (f) No change.

.02 – 18 No change.

* * * * *

2. Procedures of the Self-Regulatory Organization

(a) The proposed rule change was approved by the Exchange’s Office of the Chairman pursuant to delegated authority on January 4, 2011.

(b) Please refer questions and comments on the proposed rule change to Joanne Moffic-Silver, General Counsel, CBOE, 400 South LaSalle, Chicago, IL 60605, (312) 786-7462 or to Jenny Klebes at (312) 786-7466.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend Interpretation and Policy .01 to Rule 5.5 to improve the operation of the \$1 Strike Program.

Currently, the \$1 Strike Program only allows the listing of new \$1 strikes within \$5 of the previous day’s closing price. In certain circumstances this has led to situations where there are no at-the-money \$1 strikes for a day, despite significant demand. For instance, on November 15, 2010, the underlying shares of Isilon Systems Inc. opened at \$33.83. It had closed the previous

trading day at \$26.29. Options were available in \$1 intervals up to \$31, but because of the restriction to only listing within \$5 of the previous close, the following strikes were not permitted to be added during the day: \$32, \$33, \$34, \$36, \$37 and \$38.

The Exchange proposes that \$1 interval strike prices be allowed to be added immediately within \$5 of the official opening price in the primary listing market. Thus, on any day, \$1 Strike Program strikes may be added within \$5 of either the opening price or the previous day's closing price. On occasion, the price movement in the underlying security has been so great that listing within \$5 of either the previous day's closing price or the day's opening price will leave a gap in the continuity of strike prices. For instance, if an issue closes at \$14 one day, and the next day opens above \$27, the \$21 and \$22 strikes will be more than \$5 from either benchmark. The Exchange proposes that any such discontinuity be avoided by allowing the listing of all \$1 Strike Program strikes between the closing price and the opening price.

Additionally, issues that are in the \$1 Strike Program may currently have \$2.50 interval strike prices added that are more than \$5 from the underlying price or are more than a nine months to expiration (long-term options series). In such cases, the listing of a \$2.50 interval strike may lead to discontinuities in strike prices and also a lack of parallel strikes in different expiration months of the same issue. For instance, under the current rules, the Exchange may list a \$12.50 strike in a \$1 Strike Program issue where the underlying price is \$24. This allowance was provided to avoid too large of an interval between the standard strike prices of \$10 and \$15. The unintended consequence, however, is that if the underlying price should decline to \$16, the Exchange would not be able to list a \$12 or \$13 strike. If the underlying stayed near this level at expiration, a new expiration month would have the \$12 and \$13 strike but not the \$12.50, leading to a disparity in strike intervals in different months of the same option class. This has

also led to investor confusion, as they regularly request the addition of inappropriate strikes so as to roll a position from one month to another at the same strike level.

To avoid this problem, the Exchange may not list series with \$2.50 intervals (e.g., \$12.50, \$17.50) below \$50 under Interpretation and Policy .05 of Rule 5.5 (\$2.50 Strike Price Program) for any issue included within the \$1 Strike Program, including long term option series. At each standard \$5 increment strike more than \$5 from the price of the underlying security, the Exchange proposes to list the strike \$2 above the standard strike for each interval above the price of the underlying security, and \$2 below the standard strike, for each interval below the price of the underlying security, provided it meets the Options Listing Procedures Plan (“OLPP”) Provisions in Rule 5.5A.¹ For instance, if the underlying security was trading at \$19, the Exchange could list, for each month, the following strikes: \$3, \$5, \$8, \$10, \$13, \$14, \$15, \$16, \$17, \$18, \$19, \$20, \$21, \$22, \$23, \$24, \$25, \$27, \$30, \$32, \$35, and \$37.

Instead of \$2.50 strikes for long-term options, the Exchange proposes to list one long-term \$1 Strike option series strike in the interval between each standard \$5 strike, with the \$1 Strike being \$2 above the standard strike price for each interval above the price of the underlying security, and \$2 below the standard strike price, for each interval below the price of the underlying security. In addition, the Exchange may list the long-term \$1 strike which is \$2 above the standard strike just below the underlying price at the time of listing, and may add additional long term options series strikes as the price of the underlying security moves, consistent with the OLPP. For instance, if the underlying is trading at \$21.25, long-term strikes could be listed at \$15, \$18, \$20, \$22, \$25, \$27, and \$30. If the underlying subsequently moved to

¹ Rule 5.5A codifies the limitation on strike price ranges outlined in the OLPP, which, except in limited circumstances, prohibits options series with an exercise price more than 100% above or below the price of the underlying security if that price is \$20 or less. If the price of the underlying security is greater than \$20,

\$22, the \$32 strike could be added. If the underlying moved to \$19.75, the \$13, \$10, \$8, and \$5 strikes could be added.

The Exchange also proposes that additional long-term option strikes may not be listed within \$1 of an existing strike until less than nine months to expiration.

Finally, the Exchange represents that it has the necessary systems capacity to support the small increase in new options series that will result from the proposed changes to the \$1 Strike Program.

(b) Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”)² and the rules and regulations thereunder and, in particular, the requirements of Section 6(b) of the Act.³ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁴ requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts, to remove impediments to and to perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest. In particular, the proposed rule change seeks to reduce investor confusion and address issues that have arisen in the operation of the \$1 Strike Program by providing a consistent application of strike price intervals for issues in the \$1 Strike Program.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

the Exchange shall not list new options series with an exercise price more than 50% above or below the price of the underlying security.

² 15 U.S.C. 78s(b)(1).

³ 15 U.S.C. 78f(b).

⁴ 15 U.S.C. 78f(b)(5).

Item 5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

Item 6. Extension of Time Period for Commission Action

The Exchange does not consent to an extension of the time period specified in Section 19(b)(2) of the Exchange Act.

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

(a) The proposed rule change is filed for immediate effectiveness pursuant to Section 19(b)(3)(A)⁵ of the Act and Rule 19b-4(f)(6) thereunder.⁶

(b) The Exchange asserts that the proposed rule change does not (i) significantly affect the protection of investors or the public interest, (ii) impose any significant burden on competition, and (iii) become operative for 30 days after the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest. The proposed rule change is substantially similar in all material respects to recently noticed proposals of NYSE Amex, LLC ("NYSE Amex") and NYSE Arca, Inc. ("NYSE Arca") to amend rules regarding the listing of \$1 strikes.⁷

The Exchange provided the Commission with written notice of its intent to file the proposal, along with a brief description and text of the proposal, at least five business days prior to the date of the filing of the proposed rule change as required by Rule 19b-4(f)(6). The Exchange requests that the Commission waive the 30-day operative delay period. Waiver of the

⁵ 15 U.S.C. 78s(b)(3)(A).

⁶ 17 CFR 240.19b-4(f)(6).

⁷ See Securities Exchange Act Release Nos. 63642 (December 8, 2010), 75 FR 77689 (December 13, 2010) (SR-NYSEArca-2010-106) and 63463 (December 8, 2010), 75 FR 77923 (December 14, 2010) (SR-NYSEAmex-2010-109).

operative date is consistent with the protection of investors and the public interest in that doing so will encourage fair competition among the exchanges, by allowing the CBOE to compete effectively by amending its \$1 Strike Program when SR-NYSEAmex-2010-109 and SR-NYSEArca-2010-106 are approved.

For the foregoing reasons, the Exchange believes the rule filing qualifies for expedited effectiveness as a “non-controversial” rule change under paragraph (f)(6) of Rule 19b-4 of the Act.

(c) Not applicable.

(d) Not applicable.

Item 8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

As discussed above, this proposed rule change is based on proposals of NYSE Amex and NYSE Arca.

Item 9. Exhibits

Exhibit 1. Form of Notice of Proposed Rule Change for publication in the Federal Register.

EXHIBIT 1

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34- ; File No. SR-CBOE-2011-006

Dated: _____

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending Its Rules Regarding the Listing of \$1 Strike Price Intervals

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on _____, 2011, the Chicago Board Options Exchange, Incorporated (“Exchange” or “CBOE”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Exchange filed the proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act³ and Rule 19b-4(f)(6) thereunder.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

CBOE proposes to amend its rules regarding the listing of \$1 strike prices. The text of the rule proposal is available on the Exchange’s website (<http://www.cboe.org/legal>), at the Exchange’s Office of the Secretary and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

¹ 15 U.S.C. 78s(b)(1).
² 17 CFR 240.19b-4.
³ 15 U.S.C. 78s(b)(3)(A)(iii).
⁴ 17 CFR 240.19b-4(f)(6).

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Interpretation and Policy .01 to Rule 5.5 to improve the operation of the \$1 Strike Program.

Currently, the \$1 Strike Program only allows the listing of new \$1 strikes within \$5 of the previous day's closing price. In certain circumstances this has led to situations where there are no at-the-money \$1 strikes for a day, despite significant demand. For instance, on November 15, 2010, the underlying shares of Isilon Systems Inc. opened at \$33.83. It had closed the previous trading day at \$26.29. Options were available in \$1 intervals up to \$31, but because of the restriction to only listing within \$5 of the previous close, the following strikes were not permitted to be added during the day: \$32, \$33, \$34, \$36, \$37 and \$38.

The Exchange proposes that \$1 interval strike prices be allowed to be added immediately within \$5 of the official opening price in the primary listing market. Thus, on any day, \$1 Strike Program strikes may be added within \$5 of either the opening price or the previous day's closing price. On occasion, the price movement in the underlying security has been so great that listing within \$5 of either the previous day's closing price or the day's opening price will leave a gap in the continuity of strike prices. For instance, if an issue closes at \$14 one day, and the next day opens above \$27, the \$21 and \$22 strikes will be

more than \$5 from either benchmark. The Exchange proposes that any such discontinuity be avoided by allowing the listing of all \$1 Strike Program strikes between the closing price and the opening price.

Additionally, issues that are in the \$1 Strike Program may currently have \$2.50 interval strike prices added that are more than \$5 from the underlying price or are more than a nine months to expiration (long-term options series). In such cases, the listing of a \$2.50 interval strike may lead to discontinuities in strike prices and also a lack of parallel strikes in different expiration months of the same issue. For instance, under the current rules, the Exchange may list a \$12.50 strike in a \$1 Strike Program issue where the underlying price is \$24. This allowance was provided to avoid too large of an interval between the standard strike prices of \$10 and \$15. The unintended consequence, however, is that if the underlying price should decline to \$16, the Exchange would not be able to list a \$12 or \$13 strike. If the underlying stayed near this level at expiration, a new expiration month would have the \$12 and \$13 strike but not the \$12.50, leading to a disparity in strike intervals in different months of the same option class. This has also led to investor confusion, as they regularly request the addition of inappropriate strikes so as to roll a position from one month to another at the same strike level.

To avoid this problem, the Exchange may not list series with \$2.50 intervals (e.g., \$12.50, \$17.50) below \$50 under Interpretation and Policy .05 of Rule 5.5 (\$2.50 Strike Price Program) for any issue included within the \$1 Strike Program, including long term option series. At each standard \$5 increment strike more than \$5 from the price of the underlying security, the Exchange proposes to list the strike \$2 above the standard strike for each interval above the price of the underlying security, and \$2 below the standard strike, for each

interval below the price of the underlying security, provided it meets the Options Listing Procedures Plan (“OLPP”) Provisions in Rule 5.5A.⁵ For instance, if the underlying security was trading at \$19, the Exchange could list, for each month, the following strikes: \$3, \$5, \$8, \$10, \$13, \$14, \$15, \$16, \$17, \$18, \$19, \$20, \$21, \$22, \$23, \$24, \$25, \$27, \$30, \$32, \$35, and \$37.

Instead of \$2.50 strikes for long-term options, the Exchange proposes to list one long-term \$1 Strike option series strike in the interval between each standard \$5 strike, with the \$1 Strike being \$2 above the standard strike price for each interval above the price of the underlying security, and \$2 below the standard strike price, for each interval below the price of the underlying security. In addition, the Exchange may list the long-term \$1 strike which is \$2 above the standard strike just below the underlying price at the time of listing, and may add additional long term options series strikes as the price of the underlying security moves, consistent with the OLPP. For instance, if the underlying is trading at \$21.25, long-term strikes could be listed at \$15, \$18, \$20, \$22, \$25, \$27, and \$30. If the underlying subsequently moved to \$22, the \$32 strike could be added. If the underlying moved to \$19.75, the \$13, \$10, \$8, and \$5 strikes could be added.

The Exchange also proposes that additional long-term option strikes may not be listed within \$1 of an existing strike until less than nine months to expiration.

Finally, the Exchange represents that it has the necessary systems capacity to support the small increase in new options series that will result from the proposed changes to the \$1 Strike Program.

⁵ Rule 5.5A codifies the limitation on strike price ranges outlined in the OLPP, which, except in limited circumstances, prohibits options series with an exercise price more than 100% above or below the price of the underlying security if that price is \$20 or less. If the price of the underlying security is greater than \$20, the Exchange shall not list new options series with an exercise price more than 50% above or below the price of the underlying security.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act⁶ and the rules and regulations thereunder and, in particular, the requirements of Section 6(b) of the Act.⁷ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁸ requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts, to remove impediments to and to perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest. In particular, the proposed rule change seeks to reduce investor confusion and address issues that have arisen in the operation of the \$1 Strike Program by providing a consistent application of strike price intervals for issues in the \$1 Strike Program.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the

⁶ 15 U.S.C. 78s(b)(1).

⁷ 15 U.S.C. 78f(b).

⁸ 15 U.S.C. 78f(b)(5).

Commission may designate if consistent with the protection of investors and the public interest, provided that the self-regulatory organization has given the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change or such shorter time as designated by the Commission, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6) thereunder.¹⁰ At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>);
or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-CBOE-2011-006 on the subject line.

Paper comments:

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-CBOE-2011-006. This file number

⁹ 15 U.S.C. 78s(b)(3)(A).
¹⁰ 17 CFR 240.19b-4(f)(6).

should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 am and 3:00 pm. Copies of such filing also will be available for inspection and copying at the principal office of the CBOE. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-CBOE-2011-006 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹
