Rule 12.3—Margin Requirements

RULE 12.3

(a) – (k) No changes.

(l) Credit Options.

(1) Risk Monitoring Procedures and Guidelines

Trading Permit Holders are required to monitor the risk of customer and broker-dealer accounts with exposure to Credit Options and must implement and maintain a comprehensive written risk analysis methodology for assessing the potential risk to the Trading Permit Holder's capital over a specified range of possible market movements over a specified time period. For purposes of complying with this rule, Trading Permit Holders must employ the risk monitoring procedures and guidelines set forth below in sub-paragraphs (i) through (viii) of this Rule 12.3(l)(1). The Trading Permit Holder must review, in accordance with the Trading Permit Holder's written procedures, at reasonable periodic intervals, the Trading Permit Holder's credit extension activities for consistency with the risk monitoring procedures and guidelines set forth in this Rule 12.3(l)(1), and must determine whether the data necessary to apply the risk monitoring procedures and guidelines is accessible on a timely basis and information systems are available to adequately capture, monitor, analyze and report relevant data, including:

(i) obtaining and reviewing the required account documentation and financial information necessary for assessing the amount of credit to be extended to customers and broker-dealers;

(ii) assessing the determination, review and approval of credit limits to each customer and broker-dealer, and across all customers and broker-dealers, engaging in Credit Option transactions;

(iii) monitoring credit risk exposure to the Trading Permit Holder from Credit Options, including the type, scope and frequency of reporting to senior management;

(iv) the use of stress testing of accounts containing Credit Option contracts in order to monitor market risk exposure from individual accounts and in the aggregate;

(v) managing the impact of credit extended related to Credit Option contracts on the Trading Permit Holder's overall risk exposure;

(vi) determining the need to collect margin from a particular customer or broker-dealer in addition to the amount required by this Rule 12.3(l), including whether such determination was based upon the credit worthiness of the customer or broker-dealer and/or the risk of the specific Credit Option contracts;

(vii) monitoring the credit exposure resulting from concentrated positions within both individual accounts and across all accounts containing Credit Option contracts: and

(viii) maintaining sufficient margin in each customer and broker-dealer account to protect against the default of the largest individual exposure in the account as measured by computing the largest maximum possible loss.

(2) Requiring Additional Margin. Trading Permit Holders shall, based on the risk monitoring procedures and guidelines required above, determine whether the margin required by this Rule 12.3(l) is adequate with respect to their customer and broker-dealer accounts and, where appropriate, increase such requirements.

(3) Margin Account --Credit Default Options.

(5) Spreads. If an account is short a Credit Option and is also long a Credit Option with the same underlying Reference Obligation(s), and the long option is paid for in full, and the long option does not expire before the short option, no margin is required.

(6) Credit Option margin requirements may be satisfied by a deposit of cash or marginable securities.

(7) Concentrations. If, across all accounts, the maximum exposure in Credit Option contracts overlying any single Reference Entity exceeds the Trading Permit Holder's tentative net capital, the Trading Permit Holder must deduct from net capital an amount equal to the aggregate margin requirement for all such accounts on the Credit Option contracts (including Credit Default Basket Options having the subject Reference Entity as a component) overlying such single Reference Entity, as specified in this Rule 12.3(1). This deduction from net capital may be reduced by the amount of excess margin held in [all] such customer and broker-dealer accounts.

(8) Cash Account --Credit Default Options. A Credit Default Option carried short in a customer's account is deemed a covered position, and eligible for the cash account, provided any one of the following either is held in the account at the time the option is written or is received into the account promptly thereafter:

(i) cash or cash equivalents equal to 100% of the cash settlement amount as defined in Rule 29.1; or

(ii) an escrow agreement. The escrow agreement must certify that the bank holds for the account of the customer as security for the agreement (A) cash, (B) cash equivalents, (C) one or more qualified equity securities, or (D) a combination thereof having an aggregate market value of not less than 100% of the cash settlement amount as defined in Rule 29.1 and that the bank will promptly pay the TPH organization the cash settlement amount in the event of a Credit Event as defined in Rule 29.1.

(9) Cash Account - Credit Default Basket Options. A Credit Default Basket Option carried short in a customer's account is deemed a covered position, and eligible for the

cash account, provided any one of the following either is held in the account at the time the option is written or is received into the account promptly thereafter:

(i) For Multiple Payout Credit Default Basket Options, cash or cash equivalents equal to 50% of the sum of each Basket Component's cash settlement amount as defined in Rule 29.1;

(ii) For Single Payout Credit Default Basket Options, cash or cash equivalents equal to 100% of the Basket Component cash settlement amount as defined in Rule 29.1 that is the highest; or

(iii) an escrow agreement. The escrow agreement must certify that the bank holds for the account of the customer as security for the agreement (A) cash, (B) cash equivalents, (C) one or more qualified equity securities, or (D) a combination thereof having an aggregate market value of not less than 100% of the sum of each Basket Component's cash settlement amount as defined in Rule 29.1 in the case of Multiple Payout Credit Default Basket Option or 100% of the Basket Component cash settlement amount as defined in Rule 29.1 that is the highest in the case of a Single Payout Credit Default Basket Option and that the bank will promptly pay the TPH organization the cash settlement amount in the event of a Credit Event as defined in Rule 29.1.

(10) Duration of the Credit Option Margin Pilot Program. The Credit Option Margin Pilot Program shall be through January 17, [2012]2013.

Item 2. Procedures of the Self-Regulatory Organization

(a) CBOE's Office of the Chairman pursuant to delegated authority approved the proposed rule change on January 9, 2011. No further action is required.

(b) Please refer questions and comments on the proposed rule change to Joanne Moffic-Silver, General Counsel, CBOE, 400 South LaSalle, Chicago, IL 60605, (312) 786-7462 or to Jenny L. Klebes, (312) 786-7466.

Item 3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

On February 2, 2011, the Commission approved the Exchange's proposal to establish a

Credit Option Margin Pilot Program (“Program”).¹ The Program became effective on a pilot basis and has run on a parallel track with Financial Industry Regulatory Authority, Inc. (“FINRA”) Rule 4240, which is similarly operated on a pilot basis.² CBOE’s Program is currently scheduled to expire on January 17, 2012.

In this current proposal, CBOE proposes to decouple its Program from the Rule 4240 margin pilot program operated by FINRA. CBOE states that its decoupled Program will be substantially similar to the provisions of the FINRA Rule 4240 margin pilot program operated by FINRA.

CBOE understands that in connection with renewing its Rule 4240 margin pilot, FINRA will be revising its Rule 4240 by adding new Supplementary Material .02, which sets forth alternative tables to the existing tables that may be used by market participants to compute the required margin. CBOE similarly proposes to adopt alternative tables to the existing tables in its rules that may be used by Trading Permit Holders to compute the required margins. These new alternative tables are set forth Rules 12.3(l)(3)(ii), 12.3(l)(3)(iv) and 12.4(l)(4)(ii). Also, a few minor changes are being made to Rule 12.3(l) to renumber paragraphs and to make other non-substantive changes.

Finally, CBOE proposes to extend its decoupled Program for additional year to January 17, 2013.

¹ See Securities Exchange Act Release No. 63819 (February 2, 2011), 76 FR 6838 (February 8, 2011) order approving (SR-CBOE-2010-106). To implement the Program, the Exchange amended Rule 12.3(l), Margin Requirements, to make CBOE’s margin requirements for Credit Options consistent with Financial Industry Regulatory Authority (“FINRA”) Rule 4240, Margin Requirements for Credit Default Swaps. CBOE’s Credit Options (*i.e.*, Credit Default Options and Credit Default Basket Options) are analogous to credit default swaps.

² See Securities Exchange Act Release No. 63819 (February 2, 2011), 76 FR 6838 (February 8, 2011) (order approving SR-CBOE-2010-106).

CBOE notes for the Commission that there are currently Credit Options listed for trading on the Exchange that have open interest. As a result, CBOE believes that is in the public interest for the Program to continue uninterrupted.

In the future, if the Exchange proposes an additional extension of the Credit Option Margin Pilot Program or proposes to make the Program permanent, then the Exchange will submit a filing proposing such amendments to the Program.

(b) Statutory Basis

The Exchange believes this rule proposal is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations under the Act applicable to a national securities exchange and, in particular, the requirements of Section 6(b) of the Act.³ Specifically, the Exchange believes that the proposed rule change is consistent with the Section 6(b)(5) Act⁴ requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts and, in general, to protect investors and the public interest, and because it enhances fair competition among exchange markets.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

This proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

Item 5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

⁴ 15 U.S.C. 78f(b)(5).

Item 6. Extension of Time Period for Commission Action

The Exchange does not consent to an extension of the time period specified in Section 19(b)(2) of the Act⁵ for Commission consideration of the proposed rule change.

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The Exchange requests that the Commission approve the proposal on an accelerated basis as the proposed rule change is substantially similar in all material respects to a margin pilot program administered by FINRA. CBOE's Program is scheduled to expire on January 17, 2011, and there are currently Credit Options listed for trading on the Exchange that have open interest. Approval of the proposal on an accelerated basis is in the public interest since it will allow CBOE's decoupled Program to continue uninterrupted.

Item 8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or the Commission

As stated above, this proposed rule change is substantially similar to a margin pilot program administered by FINRA.

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Order Granting Accelerated Approval of Proposed Rule Change to Decouple and Extend Credit Option Margin Pilot Program to January 17, 2013

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on January _____, 2012, Chicago Board Options Exchange, Incorporated (“CBOE” or “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

CBOE is proposing to decouple and extend the duration of its Credit Option Margin Pilot Program through January 17, 2013. The text of the rule proposal is available on the Exchange’s website (<http://www.cboe.org/legal>), at the Exchange’s Office of the Secretary and at the Commission.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

On February 2, 2011, the Commission approved the Exchange's proposal to establish a Credit Option Margin Pilot Program (“Program”).³ The Program became effective on a pilot basis and has run on a parallel track with Financial Industry Regulatory Authority, Inc. (“FINRA”) Rule 4240, which is similarly operated on a pilot basis.⁴ CBOE’s Program is currently scheduled to expire on January 17, 2012.

In this current proposal, CBOE proposes to decouple its Program from the Rule 4240 margin pilot program operated by FINRA. CBOE states that its decoupled Program will be substantially similar to the provisions of the FINRA Rule 4240 margin pilot program operated by FINRA.

CBOE understands that in connection with renewing its Rule 4240 margin pilot, FINRA will be revising its Rule 4240 by adding new Supplementary Material .02, which sets forth alternative tables to the existing tables that may be used by market participants to compute the required margin. CBOE similarly proposes to adopt alternative tables to the existing tables in its rules that may be used by Trading Permit Holders to compute the required margins. These new alternative tables are set forth Rules 12.3(l)(3)(ii), 12.3(l)(3)(iv) and 12.4(l)(4)(ii). Also, a few

³ See Securities Exchange Act Release No. 63819 (February 2, 2011), 76 FR 6838 (February 8, 2011) order approving (SR-CBOE-2010-106). To implement the Program, the Exchange amended Rule 12.3(l), Margin Requirements, to make CBOE’s margin requirements for Credit Options consistent with Financial Industry Regulatory Authority (“FINRA”) Rule 4240, Margin Requirements for Credit Default Swaps. CBOE’s Credit Options (*i.e.*, Credit Default Options and Credit Default Basket Options) are analogous to credit default swaps.

minor changes are being made to Rule 12.3(l) to renumber paragraphs and to make other non-substantive changes.

Finally, CBOE proposes to extend its decoupled Program for additional year to January 17, 2013.

CBOE notes for the Commission that there are currently Credit Options listed for trading on the Exchange that have open interest. As a result, CBOE believes that is in the public interest for the Program to continue uninterrupted.

In the future, if the Exchange proposes an additional extension of the Credit Option Margin Pilot Program or proposes to make the Program permanent, then the Exchange will submit a filing proposing such amendments to the Program.

2. Statutory Basis

The Exchange believes this rule proposal is consistent with the Act and the rules and regulations under the Act applicable to a national securities exchange and, in particular, the requirements of Section 6(b) of the Act.⁵ Specifically, the Exchange believes that the proposed rule change is consistent with the Section 6(b)(5) Act⁶ requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts and, in general, to protect investors and the public interest, and because it enhances fair competition among exchange markets.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

(A) By order approve such proposed rule change, or
